

LONG STRUGGLE ENDS IN DEATH OF GATES

NOTED AMERICAN MILLIONAIRE WHO HAS FOUGHT FOR LIFE FOR WEEKS SUCCEEDED IN PARIS EARLY TODAY.

AN EARLY FINANCIER

Steel Magnate Who Was Unhappily of His Riches Boosted of His Deeds in Railway Stocks and Steel Interests Which Made Him Enormously Wealthy.

Paris, Aug. 9.—John W. Gates, the noted American financier, died early today in the arms of his wife and son, after one of the longest fights against death, his physicians say they over witnessed.

The death of "Hot-You-A-Million" John W. Gates, perhaps the best self-advised multi-millionaire in American history, to an end a financial and personal career that has probably never been equaled.

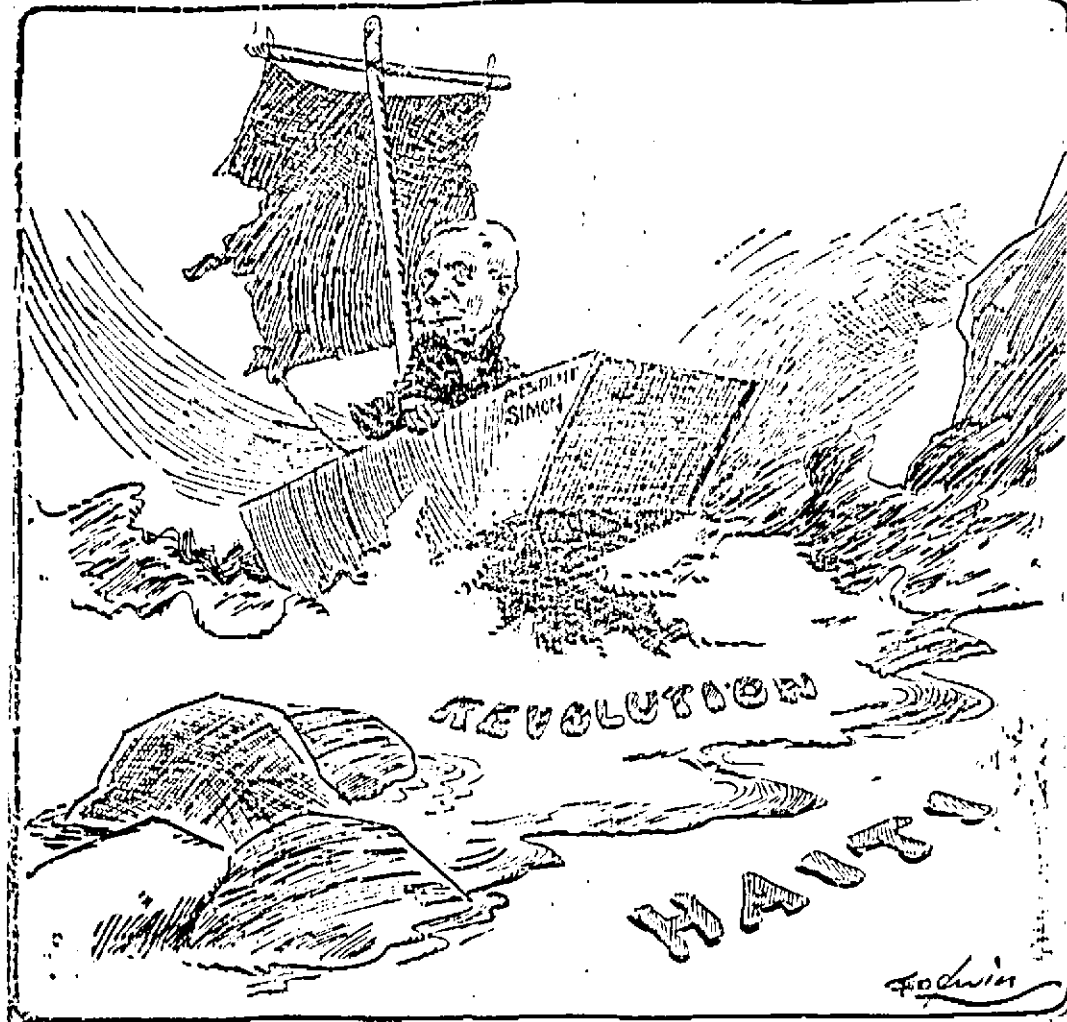

John W. Gates, famous the world over as "Hot-You-A-Million" Gates, the best-advised "gambler" in America, on December 15, 1909, attended the seventh annual conference of the gulf division of the Methodist church, at Fort Arthur, Tex., with the following spectacular "don'ts":

- Don't gamble.
- Don't play cards.
- Don't bet on horse races.
- Don't speculate in wheat.
- Don't speculate on the stock exchange.
- Don't throw dice.
- Don't drink honest labor.
- Don't be a gambler; once a gambler, always one.

The ministers agreed these "don'ts" were all right, coming as they did from a man whose heavy betting on horse races aroused the Jockey Club of New York to warn him to modify his wagers; whose spectacular gambling at "draw poker" and bridge are famed in song and poetry; who matched pennies for \$1,000 a throw, who cornered corn and hauled Standard Oil and United States steel "off the boards" in the stock exchange.

FARMER WOULD ARGUE RIGHTS ON HIGHWAY; GETS BADLY MAILED

La Crosse, Aug. 9.—During an argument over rights of autos and teams on country roads, W. D. Strathman, a member of the county board, was mailed out of his farm wagon and

ANOTHER RULER ADRIFF.

SIX PERSONS DEAD IN EXPLOSION THAT SANK GERMAN LINER

Bollers of Steamer Guttenberg Exploded This Morning Sinking Ship and Killing Six.

Rotterdam, Aug. 9.—Six persons were reported dead and ten others injured today when the bollers of the German passenger steamer "Guttenberg" exploded. The vessel was broken in two and sank instantly.

WILL GET DIVORCE FROM COPPER KING

Mrs. Oscar Turner Announces She Will Secure Separation From Husband After 22 Years of Married Life.

New York, Aug. 9.—Twenty-two years of blissful married life terminated today in the announcement by Mrs. Oscar Turner, wife of the noted multi-millionaire copper mining magnate, that she will secure a divorce and surrender her husband to a "soul mate". The Turners have two grown sons.

REFRESHING SLEEP AIDS POPE'S HEALTH

Supreme Pontiff Passed Fairly Restful Night and Awakened With Lower Temperature.

Rome, Aug. 9.—The pope had a refreshing sleep in the cooler hours of the morning and upon awakening had a lower temperature. He suffered less from gouty pains.

Strength Exhausted. The pope's condition this afternoon was less reassuring than this morning. The heat of the day, which reached 85 Fahrenheit, exhausted the patient's strength. The most disquieting symptom is the progress of the gout attack, the pains of which now extend to the thigh.

PROMINENT CIRCUIT JUDGE LIES AT POINT OF DEATH

Judge Chas. M. Webb of the Seventh Circuit Critically Ill.—25 Years As Judge.

Grand Rapids, Wis., Aug. 9.—His physician today announced there is little hope for Judge Charles M. Webb, aged 78, of the Seventh circuit, who is critically ill at his home here. Judge Webb has been in continuous service as a circuit judge for 25 years.

AMERICAN MILLIONAIRE DEAD IN NEW ZEALAND

Amiekan, New Zealand, Aug. 9.—William N. Moore, millionaire orange grower of Redlands, California, and stove manufacturer at Joliet, Ill., died here Monday.

West Texas Odd Fellows. Colorado, Texas, Aug. 9.—A large attendance marked the opening here today of the annual gathering of the West Texas Odd Fellows' Association. The initial session was held this morning in the tabernacle. The Robekids, the women's auxiliary of the order, held a session this afternoon. The gathering will continue until Friday.

West Virginia Dentists Meet. Charleston, W. Va., Aug. 9.—The West Virginia Dental Association met in annual convention here today with many leading members of the profession in attendance from all parts of the state. The convention sessions will occupy two days and will conclude with a banquet tomorrow night.

NINETY-THREE DEAD WHEN LINER SINKS OFF SPANISH COAST AFTER A COLLISION

Sixty-three Passengers and 24 of Crew of French Mail Steamer "Emir" Drowned After a Collision This Morning in Gibraltar Straits.

Gibraltar, Aug. 9.—Sixty-three passengers and twenty-four of the crew were drowned by the sinking this morning of the French steamer "Emir" off Tarifa, Spain, following a collision with the British steamer "Silverton". In a dense fog, "Silverton", the "Emir's" passenger and crew were rescued by the "Silverton", which arrived here with her starboard bow stove in.

STATE'S RESOURCES IN UNSETTLED PART

Will Be Exhibited At State Fair Under Auspices of Immigration Commission To Show Productivity.

Madison, Wis., Aug. 9.—The state board of immigration's proposed exhibit of products from the more undeveloped sections of the state at the coming state fair will be distinctive for variety and is intended to demonstrate the state's resources in regions yet unsettled. Commissioner H. G. Packard has prepared a list of exhibits desired for display. Grains, in peak amounts, spring wheat, winter wheat, barley, rye, buckwheat, timothy, clover and millet seed, beans and peas, are desired. The following (to be shown in samples of corn, state variety, are desired: White dent, yellow dent, any other dent, white flint, yellow flint, any other flint. Three samples of each of the following are sought: Blood wheat, mangels, stock beets, sugar beets, kohlrabi, parsnips, turnips, winter radishes, carrots, egg plant, cucumbers, peppers, celery, cauliflower and cabbage (single specimens), pumpkins (single specimens). All varieties of potatoes, in peak samples, unwashed, will be shown. Fruit exhibits will include apples, plums and tomatoes.

Canadian Artillery Team Sails. Montreal, Aug. 9.—A picked team representing the Canadian Artillery Association sailed on the steamship Royal George today for England to participate in the empire-wide competitions. The team consists of a dozen officers and forty non-commissioned officers and men. The competitions in which they hope to win honors will be held on historic Salisbury Plain, beginning August 25.

Why Gazette Want Ads Pull

The reason "The Gazette" want ads pull better is simply that they reach farther—that is they are read by more persons than ads in other local papers.

Over 25,000 persons are reached by "The Gazette" daily. Janesville is thoroughly covered and a great many smaller cities and towns as well as rural routes are reached. To cover all of these it costs only one-half cent per word when cash accompanies the order; 1c when charged.

MORE MEN STRIKE ON LONDON DOCKS; TROUBLE INCREASES

Thirty Thousand Carters and Fishermen Join Ranks of Strikers Today.—Movement of Provisions Prevented.

London, Aug. 9.—Increasing disorder marked the dock strike today. Thirty thousand carters and fishermen joined the strike. Meetings of strikers announced every man at the port of London will be called out, bringing the total number of strikers to a hundred thousand. Women joined the men in preventing the movement of provisions.

DIETZ'S CONDITION PRONOUNCED SERIOUS

Defender of Cameron Dam Is Suffering With Blood Poisoning in Waupun Prison.

Waupun, Wis., Aug. 9.—Statement of physicians at the state penitentiary hospital here today verified the report that John Dietz, the famous Cameron Dam defender, is in a critical condition as the result of blood poisoning from a foul wound to his right hand.

Report Is Denied. Fond du Lac, Aug. 9.—Dr. L. H. Slegstad, physician at the state prison at Waupun, vigorously denied the report that John F. Dietz was ill. The doctor said that Dietz is not in the hospital at the prison nor has he ever been there. It is reported at Waupun that Dietz was ill with gall stones, was intercepted by the prison authorities. The letter was referred to the prison physician and was not allowed to go out.

ATTACKED HIS WIFE IN DESPONDENT FIT

Milwaukee Man Who Had Been Out of Work For Weeks Would End All Troubles By Death of Family.

Milwaukee, Aug. 9.—In fit of despondency because he had been out of work for weeks, Frank Michowicz, aged 40, attacked his wife with a butcher knife, probably fatally wounding her today and then attempted suicide by the same method. They were taken to the emergency hospital where surgeons made an effort to save their lives.

COAL STRIKERS TO RETURN TO DUTIES

Settlement Is Effected With Two Thousand Indiana Miners Who Will Go to Work Tomorrow.

Chicago, Aug. 9.—Two thousand Indiana coal miners who have been on a strike for two months, will return to work tomorrow as the result of a settlement of disputes today.

RECORD MUSKELONGE IS CAUGHT AT RHINELANDER

Two Small Boys Land Monster Fish Weighing Thirty-one Pounds.

Rhineland, Wis., Aug. 9.—The record muskelonge catch for this territory is recorded here today. Two small boys landed one of the fish from the Wisconsin river. It weighed 31 pounds and measured 40 inches.

ROAD COMMISSIONER HITS ROAD MAKING PICNICS IN SPEECH

Chairman John A. Hazelwood Argues For Effective Road Building Under New State Law.

Juneau, Wis., Aug. 9.—"Road-working picnics" will never solve the problem of good highways in Wisconsin, the solution of which is being approached under a progressive policy just started by the new Wisconsin state highway commission. This statement marked the address of former State Senator John A. Hazelwood of Jefferson, chairman of the commission, before the Dodge county board of supervisors today. Senator Hazelwood said this state's heretofore non-progressive policy in highway legislation will now be followed by a rapid, sane progress in the building up of the roads.

Defending the state aid policy, he said:

State Aid Successful. "With but one exception the state aid policy has proven popular and successful. All the New England states have come under the scheme. The western states have quite generally undertaken the policy. Our sister state on the east, Michigan, has employed the system of building up highways since 1905 with marked success. Our sister state on the west, Minnesota, has just passed a state aid law whereby the state is to receive one-fourth of a mill on its taxable property for aid, and has a working fund of \$150,000 a year. Wisconsin has provided less than one-eighth of a mill on a dollar on the taxable property of the state for aid, and an appropriation of \$40,000 for an administration of the plan in each year. For liberality we have been far outdone by Minnesota at the start. Ohio and Indiana have worked under the state aid policy for many years and have greatly improved their systems of highways."

Necessity of Good Roads. Senator Hazelwood declared that the building of street and road highways build up the industrial, educational and social welfare of the people and that Wisconsin has awakened to the necessity for road development. He narrated the history of the state aid policy, how it developed schools and county fairs, rural schools especially having been much improved in the past few years owing to the aid of \$50 a year paid to each school providing improved physical conditions for good school work. The county agricultural societies, also, he said, have generally been glad to meet the requirements of the state for elevating states in order to participate in the state aid offered. Mr. Hazelwood detailed the workings of the new state highway commission and said that some twenty counties have organized fully under the county aid law of 1907. Under the new law the work will be continued, and state aid added to the local communities which petition for aid under surveys and specifications approved by the state highway commission and the county highway commissioners. Those counties that have not organized under the county aid system will be instructed to do so at once in order to come in for their share of state aid for 1912.

Effective Work Needed. "The present system of working out road taxes in the state, continued Mr. Hazelwood, "is to prevail the county board to pass a resolution appointing each year about \$4,000,000 for road and bridge improvement, or an average of nearly \$60,000 for each county. It is believed by many that much of this money is not made to count. Effectively for good roads. Road-working picnics ought to be stopped. Aving passed the day when it is believed by many that the working-out system of road taxes is an advisable or feasible. County boards ought to act under the authority given under Chapter 509 of the laws of 1911 and do away with the obsolete, farce method of building roads by the work-out system, and provide for the payment of road taxes in cash. It is stated as a fact that 80 per cent of all our nation's products of farm and factory must be hauled over country highways, and that 75 per cent of all travel of all kinds, steel roads, waterways and rural roads, is made over country highways. The significance of good public roads can be easily appreciated by all who understand the facts as just stated. The state highway commission, therefore, cannot fail to give help and consideration to all the many highways of the state. The work of the commission is far-reaching, and necessarily concerns all the people, even those settled in the quiet, pastoral life on small cross-roads, as well as those living on the main thoroughfares of the commonwealth."

Commission Will Aid. Mr. Hazelwood said in conclusion: "The state aid system has proven beyond a doubt the most successful of any thus far attempted. We bespeak success for the policy. In progressive Wisconsin if the movement receives the hearty cooperation of all those in the state properly interested in good roads, and who are willing to give the undertaking the support the great work deserves. The commission expects to have employed the best engineers and experts to be found, and will carry on the work in such a manner as to invite suggestions and criticism from all concerned with the important work. The commission realizes the scope and character of the work, and will do whatever is within its power, and will advance the work for good roads."

"BILL" LANG HEAVY WEIGHT CHAMPION OF AUSTRALIA.

Brisbane, Australia, Aug. 9.—"Bill" Lang defeated "Bill" Squires today in the fifth round for the heavy weight championship of Australia.

PRESIDENT TO VETO STATEHOOD MEASURE

JOINT NEW MEXICO AND ARIZONA BILL PASSED BY SENATE IS NOT APPROVED BY TAFT.

OTHER CAPITOL NEWS

Stanley Committee Will Not Start Contempt Proceedings Against G. W. Perkins—Charges in Willey Case—Lorimer Committee Adjourns.

Washington, Aug. 9.—Word was received at the capitol today that President Taft would unquestionably veto the New Mexico and Arizona statehood bill passed by the senate last night. His objection is to the Judiciary recall feature which is left in the Arizona constitution.

It was said that the President, in his proposed veto of the measure, would "hit straight from the shoulder" on the Judiciary recall. The moderate leaders declare they could marshal enough votes to pass the measure over his veto.

Charges in Willey Case. Charges across the committee table that technical questions which are being raised, keep back evidence in the investigation of the Dr. Willey case, created excitement among the members of the House committee on expenditures of the agricultural department today, during further examination of Solicitor McCabe of that department.

McCabe admitted to the committee that, in officially publishing for the department of agriculture a court decision in a Missouri food case, he changed several words in the judgment of the court. The change eliminated benzene of soda from the de-livered holding certain substances deleterious.

Not to Start Proceedings. At a lively executive session today the Steel Trust investigating committee decided not to press at this time the question of campaign contributions in connection with which George W. Perkins, a director in the steel corporation, was yesterday threatened with contempt proceedings before the House. The committee decided to require the steel corporation to produce the books of subsidiary companies.

Taft Promises Aid. After a conference Taft promised to furnish the Stanley steel committee with all the information in the possession of the bureau of corporations regarding the steel trust which could be furnished within the law.

In Memory of Frye. President Taft paid feeling tributes to the memory of former United States Senator Frye this afternoon in a telegram to Mrs. William Frye White, daughter of the Maine statesman.

Out of respect to the memory of the late Senator Frye of Maine the senate adjourned today.

Adverse Report. The senate finance committee decided to report adversely on the House cotton revision bill. The bill will go to the senate tomorrow.

Japan Thanks Taft. President Taft today received a cablegram from the Emperor of Japan, thanking him for his cordial welcome to Admiral Togo. Togo left Washington today to continue his tour of the United States.

Lorimer Committee Adjourns. The Lorimer committee today adjourned its hearings in Washington to resume them probably in October at Chicago.

No Authority. The committee decided that the House resolution did not give authority to go into matters of campaign contributions.

WOMAN WOULD KILL HER THREE CHILDREN

Marinette Woman Said to Be Drink-Crazed Tries to Mourn Child.

Marinette, Aug. 9.—Drink-crazed, it is alleged, Mrs. John Mattison took her three small children, the youngest two years old, to the quarry pond and prepared to drown them. Marshal Emmett Butts of Amberg, who happened to be passing, frustrated the plan. The authorities will probably take charge of the children.

REMARKABLE BOAT IS LAUNCHED AT RACINE

Racine, Aug. 9.—The Racine Boat company today launched a queer looking craft built for T. W. Schmidt of Milwaukee, who designed the freak. It is practically square and six revolving aircraft drums propelled by a ten horsepower engine is supposed to send the skimmer along at the rate of forty miles an hour.

GEORGE ADE EXHIBITS APPLES AT ANNUAL SHOW

Indianapolis, Ind., Aug. 9.—George Ade, humorist and playwright, who has taken to farming near Brook, Ind., qualified as a regular farmer here today, when he entered some choice apples in the local apple show. He picked Bell flowers and Pambos as his choice money getters.

Carnival at Long Branch

Long Branch, N. J., Aug. 9.—This famous resort is donning her gayest holiday attire in preparation for the annual carnival, which will begin tomorrow and continue through the remainder of the week. Hotels, boarding houses and cottages are filled with visitors and all indications point to one of the largest crowds ever entertained here.

JOHN W. GATES

teller or, in fact, the whole combined "street," wanted the world to know he had money. He wasn't ashamed of it. Once he had his private secretary write to the New York Herald: "Let it appear in your financial page that during the late rise in railroad stocks, J. W. Gates has made between \$3,000,000 and \$4,000,000, principally in Baltimore & Chicago and Union Pacific, both great favorites of his."

Gates was both in Turner's Junction, Ill., or what is now a part of South Chicago, on May 8, 1855. He was as poor as poverty. But, if Southern tradition be true, Gates was an early financier. He farmed "on shares," and manfully bought out his partners. He was a most excellent "house swapper." When he was 18 he was married to a farmer's daughter. After running a small hardware and grain business in Turner's Junction, Gates became a drummer, and he admitted himself, he was a "peach." He traveled for Isaac L. Elwood, founder of the barbed wire industry, and introduced wire in Texas, prevailing a wonderful adopt at the price of exhibiting this in selling out at the United States bond corporation at a price far beyond the value of his works.

"I hadn't traveled long before I found more money could be made manufacturing wire than selling it at \$100 a month," he said. With seven others he invested \$2500 in a wire manufacturing company and cleaned up 50 per cent profit a week. Elwood, owner of the patents, objected. When they served Gates with legal papers in St. Louis he moved his little plant by ferry into Illinois and made more wire, by the time legal papers reached him there he moved back to Missouri. In the end he beat Elwood and the owner of the patents had to make Gates his partner.

By 1892 Gates had consolidated all his holdings into the Consolidated Steel & Wire Co., with \$1,000,000 capital. In 1895 he put \$700,000 into the Illinois Steel Co., and was elected president. In 1898 the Illinois Steel went into the Federal Steel Co. and under the kindly guidance of Rowell P. Flower, Gates and Elwood sold out at a large profit.

That year a wire was started in Pittsburgh. Gates and Elwood rushed there and bought a steel wire mill for \$1,000,000. Just 43 weeks later they bought another for \$900,000. Gates jumped a fast train and rushed to Cleveland, where he took over the Cleveland rolling mills, "as a base of operations," for \$5,000,000. Gates and Elwood were "buying mad." Gates went to Massachusetts and bought Elwood went to Cincinnati and bought. In the week between Christmas and New Year they bought \$12,000,000 worth of wire mills.

SOCIETY CIRCUS IS PLANNED BY LADIES

LABOR DAY AT MINNISIPI GOLF
CLUB TO BE RED LETTER
EVENT.

NOVEL ENTERTAINMENT

Old Fashioned One Ring Circus, Side
Shows and Pageant Some of the
Features Talked of.

September Fourth promises to be
a red letter day in the history of the
Minnisippi Golf Club. If present
plans this year are on a more ambi-
tious scale and give promise of being
something of genuine interest.

Labor Day has been selected for the
date of the entertainment and arrange-
ments are already being made for a
number of attractions that will be most
interesting. The famous Egyptian
tent, under the direction of George
McKey, the negro minstrelsy aggrega-
tion from the sunny south, a
special attraction, which is to be ar-
ranged and brought here by the Beloit
Country Club, a fortune telling tent,
with a real Gypsy booth and a real
country dance at the club house at five
cents per dance.

The grander attraction, however, will
be the society circus. A genuine cir-
cus aggregation is to be engaged, with
the sawdust ring, the trained animals
and pink legions. Real but double
jointed California penants and gentle-
manly ring master and McKey
will sell the tickets and act as an-
nouncer.

The concert has been placed in the
hands of Miss Josephine Treat and
Gladys Hedges and two choruses are
already in process of formation and
dress rehearsals will begin shortly. In-
vitations will be sent out to all the
girls and country clubs in the immedi-
ate vicinity and regular circus adver-
tising will be resorted to attract the
general public.

It promises to be a most interesting
event and will doubtless receive a
large patronage from citizens gener-
ally. Special arrangements will be made
to accommodate all who attend. The
buses will transport the visitors to
and from the street car line to the club
house. Coming as it does on Labor
Day it should mean much in the line
of amusement for the holiday.

**STONE ARRIVES FOR NEW
CLINTON BANK BUILDING**
[SPECIAL TO THE GAZETTE.]
Clinton, Aug. 5.—The new Indiana
limestone has arrived for the bank
building and it is very fine, and when
the interior is redecorated after two
stone is placed it will be a building
second to none for a town of this
size.

Other News.
Mr. and Mrs. P. H. Woodward went
to an Indiana lake last Sunday for two
weeks outing, where they will be join-
ed by some of Mrs. Woodward's family
from Anderson, Indiana.

Robert Pluster and daughter,
Martha, left last evening for Thorpe,
Wis., to visit his son, Rev. Robert
Pluster, Jr., and family.

Mr. and Mrs. A. C. Clark expect to
leave August 15th for Dunlap, Iowa, to
visit relatives for a couple of weeks.

William A. Stone and son, John, of
West Allis, Wis., were here Monday.

Miss Vera Woodward of Waukegan,
who is visiting Mr. and Mrs. Arthur
Russon at Avalon, rode over horse
back Monday afternoon to call on O. L.
Woodward.

William Horden of Elgin, Ill., was in
town Monday visiting his father, O.
Horden.

George Swan of Seattle, Wash., ar-
rived Monday evening to visit his
mother and other relatives for a few
days.

The United Workers were very nice-
ly entertained yesterday afternoon by

Huber at the home of the former, on
East Milwaukee street.

At a regular meeting of the village
board Monday night the application of
James Crank for saloon license was
refused.

The household goods of Mr. and Mrs.
George Ames were moved to Beloit
yesterday afternoon, where they ex-
pect to make their home. Mr. and
Mrs. James Crank are now running the
Hotel Clinton.

Doctor W. O. Thomas went to Grand
Beach, Michigan, Saturday and remain-
ed over Sunday and accompanied Mrs.
Thomas and the children home from
there Monday.

Mr. and Mrs. Hermann Krebs went
to Sharon Sunday to see his sister,
Mrs. William Brexler and family.

**DRIVER OF THRESHING
OUTFIT STOPPED TODAY
ON COURT STREET BRIDGE**

Driver Who Attempted to Cross Pav-

ing Forced to Lay Planks for
Machine to Travel Over.

Strict observance of the ordinance
recently passed by the common coun-
cil relative to the passage of thresh-
ing engines over the paved and macu-
lamin streets, is being enforced by

the local police department. The or-
dinance prohibits the passage of the
engines over the streets unless two-
inch planks are laid to pass over. A
driver who attempted to pass over the
Court street bridge was this morning
stopped by Officer Patrick Fanning
and Street Commissioner Dan Wilkins
and forced to lay the planks under his
machine before he was allowed to
proceed.

ANNUAL MEETING OF SOLDIERS' - SAILORS' UNION HELD TODAY

Old Soldiers and Sailors of Rock Coun-
ty Who Took Part in the Defense
of Their Country Met Today.

This morning at eleven o'clock, the
old soldiers and sailors of Rock coun-
ty held their sixteenth annual re-
union and business meeting in the G.
A. R. Post Hall on N. Main street.

The Soldiers' and Sailors' Union
was organized at Evansville in 1895,
and has held meetings every year
since its formation. This year the
meeting was no exception to the rule
that they are well attended and mem-
bers from all over Rock county were
present.

At the business meeting this morning
it was voted by the members to make
Janesville their permanent headquar-
ters until, at least, it was decided to
remove them to some other place. The
other business taken up by the meet-
ing was the election of officers for the
following year, and the officers select-
ed were: H. A. Babcock, Evansville,
president; L. S. Mackay, Beloit, vice
president; Roy W. P. Brown, Beloit,
secretary; J. L. Brown, Janesville,
treasurer; and L. M. Nelson, Janesville,
selected secretary.

At two o'clock the Union was called
to order in a meeting at the Odd Fel-
lows' Hall, by President Babcock, and an
excellent program was enjoyed. The
program consisted of:

1. Patriotic Song by Mrs. Gertrude
Winbiger.
2. Invocation by Wm. Blake Brown,
Chaplain of Association.
3. Recitation by Mrs. Lillian Mar-
shall, of Beloit.
4. Address by Dr. Barton B. Bigler,
of Racine, Wis.
5. Song, selected by Mrs. Marshall.
6. Music by Mrs. Winbiger.
7. Singing "America" by the entire
audience.

The meeting this year was a great
success and was enjoyed by all who
were present and the union will no
doubt continue to have just as suc-
cessful meetings in the years to come.
The meeting was very well attended,
both by Janesville people and by dele-
gates from other towns. The members
present were:

J. L. Bear, A. Alder, L. M. Nelson,
J. P. Carle, G. L. McCoy, H. A. Bab-
cock, J. H. Bliss, O. C. Garthwaite, L.
Wright, Ed. Carter, J. Babas, C. A.
Wright, Wm. Pearle, E. G. Bartow, J.
A. How, Peter Crave, L. S. Mossely, A.

Mabee went picnicking on Wednes-
day.

Wm. Stapleton has moved into A. A.
Gille's house.

Miss Grace Hefty of Monroe teaches
the J. C. Penn district. The school
opened Monday, Aug. 7.

J. P. Kildow has resumed his work
on the rural route.

Mr. and Mrs. Clark Lyman went to
Monroe, Wednesday, after Mrs. Ly-
man's daughter, Alvin.

Mrs. Chas. Newman of Broadhead
visited Mrs. B. J. Newman, several
days last week.

Miss Lillian Newman of Monroe
spent the latter part of last week
with Mrs. Edith Allen.

Miss Grace Miller and Miss Helen
Spaul went to Broadhead, Wednesday.

Mr. David of Milwaukee had busi-
ness in Juda on Wednesday.

Miss Elsie Gray of Broadhead spent
Saturday and Sunday.

Mrs. C. H. Hall and daughter, Katie,
rode to Broadhead, Thursday, is their
auto.

Mrs. Anna Dunwiddie and daughter,
Helen, were Broadhead shoppers on
Saturday.

Mrs. Emily Atkinson and daughter,
Vera, returned home Friday evening
after a three weeks' visit with Mr.
Myers in Iowa.

Mr. and Mrs. Sam Newman of St.
Paul, Minn., are here visiting relatives.

Miss Ora Alexander went to Broad-
head, Saturday, and returned home on
Monday.

Mr. and Mrs. C. Davis are here vis-
iting his parents, Mr. and Mrs. A. A.
Davis.

C. H. Hall and Ben Matzke had
business in Monroe, Wednesday.

Miss Hazel Enrick of Clarno is
here visiting friends.

C. H. Mitchell of Broadhead had
business here Wednesday.

A. Dunwiddie was found uncon-
scious in the road last Saturday. He
is better at this writing.

Man and His Watch.
"Ever notice," said Uncle Henry
Dutterworth, "that if ye ask a man
what time it is just after he's looked
at his watch he'll pull it out and
glance again before he tells ye?"—
Kansas City Times.

CHARLES E. PIERCE IS GRANTED DIVORCE

Findings of Fact Were Filed Today
Ordering Judgment in Favor
of Plaintiff.

A decree of divorce from the bonds
of matrimony has been granted
Charles E. Pierce from Adelaide R. P.
Pierce by Judge Grimm of the circuit
court. The findings of fact in the
case, whereby the court finds in the
plaintiff and orders a judgment in fa-
vor of Mr. Pierce, were received from
the judge today and filed in the office
of Clerk of the Court Jesse Earle.

Judgment in favor of the plaintiff
was also ordered in the case of the
First National bank of Edgerton
against J. C. Hiderman, the findings
of fact being filed today. The action
arose over mortgages.

JANESVILLE LODGES WILL HOLD PICNIC

Janesville Odd Fellows and Rebekas
Will Hold Their Third Annual
Joint Picnic At Yost's Park
Tomorrow.

Tomorrow afternoon the Odd Fel-
lows and Rebekas will hold their
third annual joint picnic at Yost's
Park. They extend a cordial welcome
and promise a good time to all the
Rebekas, the Odd Fellows and all
their invited guests. There will be
an athletic program in the afternoon,
comprising a ball game between the
Beloit and Janesville lodges, and af-
ter that a track meet in which all who
wish to may partake. However, the
festivities will not end there for in
the evening there will be a dance for
the young people. There are prizes
up for all of the contests and they
will all be hotly contested. All Rebekas
and Odd Fellows and their guests
will no doubt go early and stay late,
and all will have a fine time.

OBITUARY.

Arthur Dohs.

The funeral of Arthur Dohs, the four
year old son of Rudolph Dohs, who
died Monday morning at six o'clock,
was held this afternoon from the
home on South Jackson street and
from the St. Paul's church at 2:00.
The service was performed by Rev.
Kourner. The body was taken to Oak
Hill for interment.

Effect of Food on Character.

A scientist has recently been inves-
tigating the effect of food, particular-
ly vegetables, on the human charac-
ter. He affirms that a diet of carrots
ameliorates harshness of character
and reduces nervous irritability; peas
create joyousness, while turnips have
a depressing influence. Cabbage is
good for pulmonary complaints, while
lettuce acts as a sedative upon the
human frame, owing to the opium con-
tained in its milky juice.

Life.

Metaphysicians say that life beyond
the grave has been proved by medi-
ums. Other people who have attended
seances say they are assured there
was life behind a convenient curtain
from which hands and things emerged
at intervals.—Exchange.

Fooled the Brokers.

Members of the London Stock Ex-
change were tricked by a fake selling
"imitations" of common almond nuts
at two cents each. But the "imita-
tions" turned out to be real nuts, show-
ing that brokers know more about
melons than nuts.

Lightning Plays Havoc and Wreaks Its Toll

The storm of last Sunday at Kohlville is another of those les-
sons from the book of actual experience which should teach us the
need of providing safeguards. Read the clipping.

LIGHTNING RAISED HAVOC AT FUNERAL

One Woman Killed and Four
Others Rendered Unconscious
When Bolt Hit Church Dur-
ing Services.

[BY EXTRA PRESS.]

Kohlville, Wis., Aug. 7.—Four
women are on the verge of
recovery from the effects of a
lightning bolt which struck the
church here yesterday.

Just Started.

The pastor had just commenced the funeral sermon when a blinding
flash of lightning crashed through the roof of the church and into the fun-
eral.

Four Others.

Four other women were rendered unconscious and the entire congrega-
tion dazed. Mrs. Conrad was the mother of nine children.

Don't Let Lightning Strike Your Home

You may have protection—positive, assured and guaranteed.
The cost is small. The investment is made just once, while the pro-
tection continues year after year. Look into the DODD & STRUTH-
ERS SYSTEM OF LIGHTNING CONTROL. It is for you and
everyone who places the safety of his home and family above a few
paltry dollars.

The Dodd & Struthers system of protection is guaranteed to you
under a personal binding contract. If your buildings are ever dam-
aged by lightning it is made good or your money refunded.

The Dodd & Struthers System includes right installation. Every
detail is looked after. Every building is a separate problem.

Delays are dangerous. Protect your home and family now.
Start this day by writing for our great lightning rod books with
the laws of lightning, vivid pictures of lightning, explanation,
guarantee, agreement to make good damages etc., FREE. Address.

CYLINDER HEAD OF ENGINE ON PASSENGER BLOWN OUT

Accident Occurring Near Bardwell
This Morning Caused Delay of
Half Hour in Train From
Chicago.

Engine 201 on the passenger due
here at 10:25, blew out a cylinder-head
near Bardwell station this morning,
causing the train to be about half an
hour late. The engine brought the
train to this city and its place was
taken by engine 1601 to complete the
run to Madison.

INSPECTION REPORTS ARE SENT TO MILWAUKEE OFFICE

Reports covering annual and month-
ly inspection of twelve engines were
forwarded to the central office at Mil-
waukee from the local shop today.
The making of these reports involves
considerable clerical work on the part
of the foreman and his assistants as
every little detail necessary to show
the actual condition of the boiler is
shown on the reports.

Engineer T. James is taking a vaca-
tion of two weeks, and Engineer
Smith is taking his place on yard en-
gine 1151.

Engineer Mead and Fireman Ma-
honey went to Rockford this morning
with engine 1014 and returned with
engine 1050.

Chicago & Northwestern.

A special car belonging to the
Aulcor Bros. show and an extra bag-
gage car containing their luggage
passed through the city this morning
on the rear end of train 518. The
show will stop off at Sharon for a one
night stand.

On account of a broken box on one
of the trucks of the tender, train 518
was delayed for about half an hour at
the station this morning.

Switchman Smith went out this
morning on the way freight in place of
Brakeman McCaffery.

Brakeman Dulm resumed work on
the Barrington run this morning.

Conductor Perry is laying off today
and is relieved by McCarthy.

Conductor Sage is laying off for a
week and will go to his home in
northern Michigan.

New Yorkers Will Not Walk.

In the borough of Manhattan ap-
proximately 9,000 passenger elevators
and 12,000 freight elevators are en-
gaged in the daily transportation of
6,500,000 people. In the six years
1903-1908 more than 4,000 of these ma-
chines were installed.

official communications. An international commission drafted the terms of the agreement, and the matter went to congress for approval. From beginning to end there was no attempt to hide its purposes. Reciprocity would be helpful to the United States. It would also be helpful to Canada. It was a business proposition. It was and is directly in line with dollar diplomacy, but it is none the worse for that.

"The other case rises above purely commercial considerations, but it is a still more impressive instance of what may be accomplished by getting directly and quickly to the point. It was believed in Washington that the time had arrived for unlimited international arbitration. The secretary of state, Mr. Knox, in a circular addressed to the representatives of foreign powers, said so. There was no secrecy or mystery here, either. The world was taken into the confidence of this government. No doubt the proposal, coming in such a 'shirt-sleeve' fashion, stunned momentarily some of the foreign governments, but the fact remains that two of these governments have already acted upon the rough-and-ready proposal and that others are preparing to follow.

"It must not be imagined from all this or from anything else that may be said on the subject of shirt-sleeve or dollar diplomacy that the state department at Washington and the American representatives abroad are unimpaired of the nice requirements of diplomatic usage. It is not charged, nor could it be justly, that they are departing in any particular from the amenities or the moralities. They are simply disregarding vague and uncertain terms and indefinite and confusing methods in their dealings with foreign countries and proceeding generally on the theory that with a nation as with an individual, when it has something to say, the wisest course is to say it clearly, as this method not only expedites matters but prevents misunderstanding.

SANTO DOMINGO.
When the United States arranged with the Dominican republic to take charge of its customs receipts, so as to facilitate payment of certain obligations to other nations, the sole purpose in view was the rehabilitation of the country's finances. Statistics covering the last fiscal year appear to do more than justify the course, and the report of the general receiver of Dominican customs, William E. Pullman, is one on which Santo Domingo may base hopes of future prosperity. In view of the restlessness of Hayti, where revolution and counter revolution now threaten cessation of agricultural and commercial activity, Dominican can be congratulated because realization has come to them that little is to be gained by political contentions.

The year records a considerable increase in the sugar production, and this has helped to swell the exports, which amounted to more than \$17,000,000, an increase of almost \$5,000,000 over those of the year before. As for the customs collections, so essential to the proper administration of the republic the efficient work of Mr. Pullman and his staff resulted in a revenue increase of \$1,617,712; not a large sum when considered in relation to a large country; but considerable in the eyes of a Latin-American people who have not had the advantage of the best business methods. Administrative affairs in Santo Domingo are now more satisfactory than they have been in years. There is no reason to believe that the disturbances in the neighboring republic will themselves upon the Dominicans or interfere with trade. With American officials in charge of the custom houses there should be no tampering with port facilities, and it is to be hoped that the peaceful conditions prevailing may eventually have a soothing effect on Hayti.

Once upon a time Louis XI, who believed in south-sayers and fortune tellers, decided to order the death of his principal advisor in those lines. Desiring to test his ability to foretell his own future he asked him if he could tell when he was to die. The clever south-sayer replied, "One hour your Majesty." The order for his death was not executed. This is history and at this time is perhaps appropriate.

Now that the last legislature is over and the members back at home, there is a lot of fence-building for the next year's nominations already started. Rock county has been split up as to assembly districts and united with Walworth county as to the senatorial proposition. It will take some manipulation to secure even a nomination next year.

President Taft is going to make a series of speeches throughout the country in the near future, and when he finishes it is safe to say that he will have made friends of two-thirds of the persons that have heard him.

General Simon, once of Haiti, says that he intends to make Jamaica his home in the future. In this his former fellow citizens will doubtless be glad to learn and assist in any way possible.

Today Edgerton is entertaining visitors from all parts of the county at the annual picnic which has become a feature of the Tobacco City's summer activities.

Edgerton knows that the number of inventions had totaled a million before he started to take that long deferred vacation of his.

The fortune-telling man is having his final hour. The council, evidently means to pass that ordinance and if it does something will happen.

An insane man in New Jersey was brought back to his normal senses by a collision. It has been known to work in politics as well.

Talking of genuine Japanese courage. Look at the round of banquets and fetes that Admiral Togo faces.

It is pretty near time for the hay feverites to begin their annual pilgrimage to the northern woods.

Some Chicago land is worth twelve thousand dollars a front foot, but look at the crops they grow on it!

No one really ever meant to include that Colonel Roosevelt merely had a title and no right to it.

An Atlantic liner collided with an iceberg but was not seriously injured; neither was the iceberg.

Chicago is beginning to look like the center of the aviation world to the average bird man.

Even Underwood and La Follette can not agree to agree or even disagree.

Paris objects to being called shabby but glories in the term "naughty."

PRESS COMMENT.

Why Is Beer?

Chicago Examiner: Recent statistics furnish interesting data on the consumption of liquids in the United States. For instance, in the past five years we have graciously paid for drink more than eight billions. In the past three years the average expenditure for intoxicating beverages has been \$24.50 per family of five. But the figures also show that the nation has not grown more intelligent in drinking malt and spirituous liquors, the increase per capita in five years being only three-hundredths of a gallon.

Beer is growing more and more popular, as evidenced by the fact that we consumed nearly two billion gallons in 1910. It will bring forth no denials to assert that the \$91 spent by the average family for liquor might well be put to better use. But, happily, the nation is more temperate than it used to be and drunkenness is now regarded not only as a bar to success, but it is one of the unpardonable sins in society.

Rivalry to Andy.

Evening Wisconsin: "William the Peaceful" is the phrase which Maximilian Harden's paper, the Zukunft, applies to the Kaiser because he does not plunge Germany into a war of aggression. Much venom as the Kaiser's inveterate critic intends to attach to it, "William the Peaceful" will not be accepted as a term of reproach by the thoughtful portion of mankind. The Kaiser commands the mightiest force which ever has been maintained in the history of the world except for the immediate purpose of war. He holds the lightning of war in the hollow of his hand, but will not launch them without provocation, so Maximilian Harden fears. Harden's grievance is one that deserves no sympathy from men who feel for humanity and love justice.

Should Stand Firm.

Beloit Free Press: There is no good reason why President Taft should approve either the wool bill or the free list bill. The tariff board was appointed to study the tariff question scientifically and until its report is received at the beginning of the regular session of congress there is no sense in wasting time or spending the public money in trying to make political capital for anyone. It is believed President Taft will stand his ground and not sign any new tariff legislation until the tariff board has made its report.

Teddy's Latest.

Fond du Lac Reporter: Roosevelt has appeared in many roles, but his latest is "A Preventer of Panics." Well "Teddy" has posed as an authority on most everything and his attitude in defense of the steel trust merger don't surprise the public so much after all, although the sight of an ex-president appearing before committees to defend his acts is rather an unusual one.

All for the Cause.

Whitewater Register: One man asserts that blouses are going out of fashion and that big feet for women are coming in. The critics of the sex will immediately seize upon these facts, especially the latter, to prove that women are walking too much over tradition and conservatism in their complicity for more rights, thus sacrificing fair complexion and small feet.

The Latest Firewater.

Rockford Register-Gazette: Shades of Fenimore Cooper! Fort Peck Reservation Indians, who had refused to give a noble battle for money, clothes or firewater, whooped up a lively one when paid two hundred pounds of candy. If the pay had been in ten cream cones, they would probably have gone on the war path.

All for Nothing.

San Chaire Leader: Mr. Bryan has left his home to all lecture engagements. Just in the nick of time he was assailed by Underwood of Alabama. Some men have "advertising" showered upon them, while others grope idly in the hands of poor press agents.

UNCLE WALT

THE POET PHILOSOPHER

(Copyright, 1909, by George Matthew Adams.)

By WALT MASON.

Upon my farm I sadly looked, for drouth had left it bare.

"I cried, 'My goose is cooked'—there'll be no crop this year."

The grass was burned to gray and red, the corn leaves withered away;

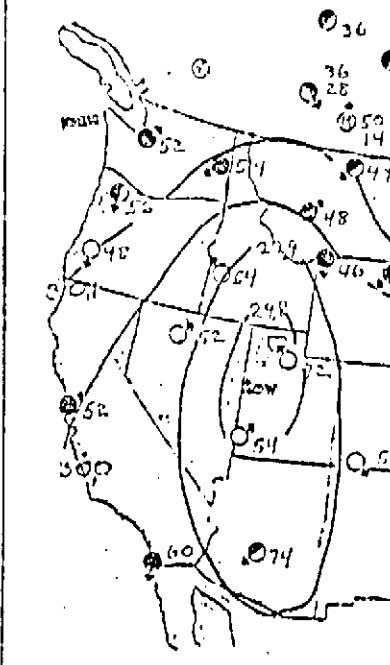

The turn everything seemed stark and dead, save weed and cocklebur.

And so I wrung my hands and wept, and made

STARTS FOR COAST IN HIS MOTOR CAR

J. E. INMAN AND WIFE TO MAKE
TRIP OVERLAND IN THIRTY
DAYS.

LEAVE MONDAY NEXT

Will Camp Along the Route, Taking
Tent and Equipment on the
Automobile.

In the mad rush for the Pacific coast in the days of 49, travellers journeyed to the land of promise with ox teams, in primitive schooners, taking months to the trip and in lack of water, Janesville furnished its quota of early pilgrims to the land of promise, many remaining on the coast and becoming rich, others returning home sadder, but wiser.

On Monday next another party starts from Janesville for the great coast country, but they will travel by automobile. Like their predecessors, they will camp by the roadside, but unlike the early pathfinders will take but thirty days instead of the weary months for the journey. J. E. Inman and wife will make this modern twentieth century journey in their auto.

Equipped with tent, folding cot, camping stove and other necessary camp and automobile equipment, Mr. and Mrs. Inman start on Monday for Dixon, Illinois, where they will start on the great transcontinental automobile route for Newport Heights, California, going by way of Cheyenne, Oregon, Reno, Nevada, and thence across the great salt valley to the coast.

Their total equipment, including auto will weigh thirty-two hundred pounds and will include a fourteen by sixteen tent and poles, folding army cot and cook stove, with provisions, extra tires, blankets and personal baggage. Thirty days is the limit set on the trip and it will prove a most interesting journey.

LIMA YOUTH RAN AWAY FROM HOME

Charles Knowles, Aged 14, Took Train
From There Last Night and May
Have Come to This City.

Charles Knowles, aged 14, son of Melvin Knowles of Lima ran away from home last night, leaving Lima on the west bound train. Trouble with his parents who, it is said, made him work against his wishes, is said to be the cause for the boy leaving home. The boy's father and mother have separated and he has been living alternately with both of them, but of late has stayed with his father. He was a stocky built lad with a fleshy face and big blue eyes, and was known as "Chubby." His parents insisted that he should work, which he was averse to do. The youth was dressed in a black suit and wore a black hat when he left home. It was thought that he might have come to this city and the police department was asked to look for him but no trace of him was found here today. He had but little money with him when he left and carried no keys, so it is thought he cannot go far. The boy has an uncle living here, Joe Boto, Wis., near La Crosse, and it is thought he may have started for there.

COMMERCIAL CLUB TO WOODLAWN BAY

Twenty-six Members of Old Organization
Enjoyed Annual Outing at
Delavan Lake.

Twenty-six members of the old Commercial club left this afternoon by automobile for Delavan Lake where they will enjoy the annual outing and banquet at Woodlawn Bay this evening. This is an annual event of the club and plans for this gathering were quite elaborate. They will return to Janesville this evening. Those who will attend are: Geo. B. Parker, G. C. Sutherland, V. P. Richardson, T. O. Howe, Chas. A. Muggleton, P. J. Mount, H. M. Bostwick, Jr., Harry Garbutt, J. S. Mifflin, Al. Schuller, H. H. Biles, H. M. Hanson, M. O. Mount, A. E. Bingham, Val. J. Weber, Geo. F. Kimball, Fred Sheldon, J. L. Bostwick, E. V. Whitton, P. B. Strickler, P. L. Clemons, Geo. M. McKee, John Galtner, T. S. Nolan, F. A. Blackman, A. J. Gibbons.

BARN DANCE
at Chas. Kilmer's, Aug. 11, 2 1/2 miles from Institute for Blind on river road. Picnic supper. Good music.

BRIEF LOCAL NEWS.

C. Borkenbagen's elder mill at Hanover will run every Wednesday and Saturday, 2c per gallon.

The ladies of the Presbyterian church will hold a cake sale at the church parlors Saturday morning at 11 o'clock. Donations will be gratefully received.

Our special clearing sale this season has attracted larger crowds than any similar sale has ever attracted which goes to show that our unusual effort this year is appreciated by the public. T. P. Burns.

INCORRIGIBLE GIRL SENT TO THE INDUSTRIAL SCHOOL

Mary Hauser, Age 13, Committed to
School at Milwaukee by Judge
Fifield Yesterday.

Mary Hauser, a thirteen year old girl, was committed to the Wisconsin Industrial school for Girls for incorrigibility by Judge Fifield in municipal court yesterday afternoon. The commitment was made at the request of the girl's parents who no longer had control of her. Her companions are said to have led her astray. The girl acknowledged this morning her actions had been wrong and promised to try to do better. She was taken to Milwaukee this morning by Sheriff Hanson. The girl is the adopted daughter of Fred Hauser.

MANY PEOPLE WENT TO EDGERTON TODAY

To Attend Temperance Picnic Held in That City—Early Morning Trains Packed With Picknickers.

In spite of the threatening showers, which seemed about to burst at any time, many loyal temperance people took the morning train to the picnic at Edgerton today. The early train this morning carried about 100 people and the 10:30 train was loaded to the platforms with those who were unable to go earlier. In all about 270 Jolly picknickers made the journey, all enjoying high hopes of a fine time. The fact that there was standing room only, and little of that, made no difference to the good natured crowd, and any sort of room. Among those who went this morning were the following: Charles Putnam, Mayor John C. Nichols, Mr. and Mrs. Will Hayes, E. Lane, Asst. Fire Chief Murphy, Will Squares, Archie Kenting, John McElaney.

OBITUARY.

Turner J. Wilcox.

The funeral of Turner J. Wilcox, who died in Pasadena, Cal., was held last evening. The body was brought to Janesville at 5:15 and was taken charge of by the Odd Fellows. Mr. Wilcox was about seventy years old. He formerly resided in Janesville. The body was taken directly to the chapel and after the service was interred in Oak Hill cemetery.

UNIQUE PAPER WAS PLACED ON FILE

Ante-Nuptial Contract Between John
Maxworthy of Turtle, and Mrs.
Christann Stoll Recorded
Today.

In Register of Deeds F. P. Shiley's office today, a unique paper, an ante-nuptial contract, whereby John Maxworthy of the town of Turtle, bestowed a dower of certain properties on Mrs. Christann Stoll of Beloit, was filed.

In the paper, which is made out in due legal form the man makes a settlement in jointure on the prospective bride on condition that she marry him. The agreement stating that at the death of Maxworthy, his wife shall be paid \$1,000 out of the estate. The deed conveys to the woman a lot and all appurtenances in her estate, addition to Beloit, and all furniture and household effects. Maxworthy, withholding the right to occupy and use the same during his natural life. In return Mrs. Stoll has agreed to marry Maxworthy and sign away all other rights to his estate at the time of his death.

Licensed To Marry: A marriage license was this afternoon granted to Charles C. Fisher and Martha Bush, both of the town of Center.

EDGERTON WELCOMES CROWDS AT PICNIC; THOUSANDS ATTEND

Twenty-Ninth Annual Event of T. A. & B. Society At Tobacco City Is Held Today—Many Visitors.

(SPECIAL TO THE GAZETTE.)

Edgerton, Aug. 9.—This is the day of the 29th annual picnic and races of Father Matthews' T. A. & B. Society. The day opened most perfect and the city is thronged with visitors. At 9:30 the procession, headed by the Edgerton concert band, marched to the Driving Park, where the day's event is being held. The number of members in the society is up to the usual standard, but the attendance up to 10 o'clock was not as great as in former years. However, a big attendance is expected during the afternoon. Janesville is well represented and all incoming trains bring throngs of visitors.

Deerfield and Beloit have both crossed bats this morning in an exciting game which resulted in the victory of Deerfield, with a score of 11 to 7.

Another ball game and horse racing is on the program this afternoon. The crowds are estimated to be less than in former years, but incoming trains were heavily laden and it is thought that there are several thousand out of town people here. Street caravans are on the streets and the city presents a gala appearance.

Personal.

George Bucknall is home from Broadhead for a stay of a few days.

Miss Mildred Doty left yesterday for Viroqua on a visit to friends.

Mr. and Mrs. A. C. Hogue of Milwaukee, came yesterday for a few days visit with his parents, Mr. and Mrs. Ole Hogue.

Miss Corna Lipke arrived home yesterday from Broadhead, Mont., after a stay there for over two years. Miss Lipke intends to remain here for over the winter.

Mr. and Mrs. J. A. Cunningham of Chicago, and E. L. Donahue of Ponca City, Oklahoma, are in the city, guests of Dr. and Mrs. H. L. Cleary. They will remain until after the T. A. and B. picnic.

John Skyles of Bayfield, Wis., is here on a visit with the family of C. A. Flagg for a week or ten days.

Mr. and Mrs. Frank Harrison of the Central hotel, Evansville, are here today attending the picnic and races.

Carlton Hotel.

Arrivals at the Carlton hotel Tuesday were: H. L. Decker, E. H. Ransom, Frank Ayers, George G. Sutherland, Jamesville; T. Erickson, Stoughton; J. W. Humphrey, E. Rockwell, Whitewater; Frank Hood, A. O. Holton, W. H. Hughes, Madison; M. Armstrong, H. F. Koch, Thea Sternemann and wife, George W. Carlsson, Milwaukee; A. G. Ramsdell, Oshkosh; Mrs. M. Martin, Menominee; Palle; Jas. H. Galloway, Rockland; A. N. Henly, Aurora, Ill.; H. C. Harrison, Grand Rapids, Mich.; H. Lichtig, Fred Hedger, H. Chace, Chicago.

BROADHEAD.

Broadhead, Aug. 9.—Mrs. Frank W. Cooley of Indianapolis, Ind., is visiting her father, H. H. Rugg, and others in Broadhead for a time.

Miss Ayla Hurd has returned from a week's visit with friends in Rockford.

Mrs. P. P. Nolly and daughter, Miss Florence Nolly, are visiting Julia friends for a few days.

Miss Mabel Collins left on Tuesday for a fortnight's visit with relatives in Eagle.

Miss Gertrude Kurth of Chicago, who had been the guest of Mr. and Mrs. W. L. Gehl, went to Janesville on Tuesday where she spends a day with Mrs. H. H. McDaniel and returns to her home in Chicago.

Miss Emma Meyers went to Edgerton to visit friends.

Mrs. C. J. Lyon was a visitor in Janesville on Tuesday.

Peter Burns is going about with two canes on account of a lame knee which he injured some years ago.

John Moor and Ed. Burns are in Julia awaiting in the building of the Elb Frisbie residence.

Wm. Volhardt remains about the same, apparently, and at times it looks as though he might recover, but his physician gives no hope.

Get rid of your surplus furniture—Use a Want Ad.

CURIOUS BITS OF HISTORY

By A. W. MACY, THE LEVELLERS.

There are always some who are dissatisfied with existing conditions, no matter how favorable they may be. Even though such people enjoy a large measure of liberty, they want more, and imagine themselves abused if they do not get it. Oliver Cromwell was called the Great Commonwealther, yet at one time a considerable portion of his army became mutinous because they thought his government was too aristocratic. They were called "Levelers," because they clamored for a republic based on the absolute equality of all citizens. The Protector of course put them down with his iron hand. But there were "Levelers" before the time of Cromwell. In the sixteenth century a formidable party with that name arose in Germany. The leaders taught that all distinctions of rank are usurpations of the rights of humanity. The uprising assumed alarming proportions, and an army of forty thousand "Levelers" set out to put their doctrine into practice by ravaging the country. The landgrave of Hesse went against this army with his trained soldiers, and seven thousand of the "Levelers" were slain.

MARKET IN EXTREME DOWNWARD MOVEMENT

Pronounced Nervousness Was Noted At Opening of New York Stock Market With Serious Downward Tendencies.

(BY UNITED PRESS.)

New York, Aug. 9.—The stock market continued to show extreme nervousness at the opening today here were sharp reactions on the initial transactions than a sharp uptick and at the end of 15 minutes another downward movement.

HOG PRICES RISE STILL HIGHER TODAY

Advance of Five To Ten Cents Over Yesterday in All Grades.—Receipts Increase.—Cattle Market.

(BY UNITED PRESS.)

Chicago, Aug. 9.—Different grades of hogs advanced in price at a gain today, amounting in most cases from five to ten cents. The receipts were increased to 20,000 to 6,000 over yesterday. The outlook for the future market this week is good and buyers are eager for all offerings.

The cattle market remained steady without any marked increase or decrease in price. Receipts were fair. Heavy receipts of sheep of more or less inferior quality forced the market down to weaker ranges today. The quotations:

Cattle. Cattle receipts, 17,000. Market—higher. Heavy—5.00@5.50. Cows and heifers—2.20@4.10. Stockers and feeders—3.00@4.50. Calves—5.75@7.00.

Hogs. Hog receipts—20,000. Market—higher. Light—7.20@7.50. Heavy—7.50@7.75. Mixed—7.00. Pigs—6.00@7.65. Rough—6.00@7.05.

Sheep. Sheep receipts—20,000. Market—lower. Western—2.50@4.75. Natives—2.25@4.75. Lambs—3.25@6.75.

Wheat. Sept.—Opening, 92½; high, 93; low, 91½; closing, 92½. Dec.—Opening—97½; high, 97½; low, 96½; closing, 96½.

Rye. Closing—No. 2, 87; No. 3, New, 82½.

Barley. Closing—65@1.14.

Oats. Sept.—41½. Dec.—44½.

Corn. Sept.—65. Dec.—62½.

Poultry. Hens—live, 13. Springers—live, 14½@15½.

Butter. Creamery—20. Dairy—21.

PRODUCE MARKETS ALL REMAIN FIRM

Practically No Changes Have Taken Place in Either the Fruit or the Vegetable Markets.

The market in fruit and vegetables remains firm, with practically no changes other in prices or in the produce, which is on sale. The fruit market is well supplied with the various varieties, and the same is true of vegetables. The average prices which are current in Janesville can be obtained from the following list:

Fresh Vegetables. Beets, bunch—6c. Cabbage, (new) lb.—8c. Cucumbers, each—5c@8c. Carrots, bunch—4c@6c. Green Peppers—5c@7c. Green onions, 2 bunches for 5c. Green string beans, lb.—15c. New potatoes, pk.—50c. Green corn, dozen ears—13c. Onions (Texas white), lb.—8c. Onions (Texas yellow), lb.—8c. Tomatoes (home grown) lb.—1c@1c. Turnips, 3 bunches for 10c. Wax beans, lb.—15c.

Fresh Fruit. Apples, pk.—50c. Apples (crab), lb.—\$1.00. Apples (wintergreen), pk.—\$1.00. Apples, cooking, pk.—20c@30c. Apples, Canadian, pk.—75c. Bananas, dozen—15c@20c. Concord grapes, basket, 50c. Cherries (Cal.), lb.—20c@25c. Malaga grapes, lb., 20c; basket, 75c. Lemons, per dozen—30c@50c. Pineapples, each—15c@25c. Plums, California, doz. 20c; basket 75c.

Peaches, basket—30c. Oranges, dozen—30c@40c. Watermelons, each—30c@35c. Muskmelons, each—10c. Plantain, lb.—5c. Pears, doz.—35c.

Butter and Eggs. Creamery butter, brick—32c. Dairy butter, lb.—27c. Eggs (fresh, doz.)—18c@20c. Buttering, lb.—15c@18c@23c.

Flour, Nuts and Popcorn. Hickory nuts, lb.—8c. English walnuts—15c@25c. Flour, per sack—\$1.40@1.50. Graham flour, 10-lb. sacks—30c. Rye flour, per sack—70c. Cornmeal, 10-lb. sack—25c. Whole wheat flour, 10-lb. sack—55c. Popcorn—5c.

Honey. Honey, comb, lb.—30c. Honey, strained, pint—25c. Honey, strained, ½ pint—15c.

Pope's Eighth Anniversary.

Rome, Aug. 9.—The eighth anniversary of the coronation of Pope Pius X. was observed today with the customary mass and reception in the Sixtine Chapel at the Vatican. The function was attended by a brilliant assemblage of cardinals, bishops, diplomats and members of the nobility. The pope was unable to take part in the celebration owing to the fact that he is still weak as a result of his recent illness.

C. T. A. U. Convention Meets. Scranton, Pa., Aug. 9.—Delegates and visitors from many widely separated parts of the United States and Canada filled College Hall today when the Rev. Peter J. O'Callaghan called to order the annual convention of the Catholic Total Abstinence Union of America. Prior to the opening of the convention sessions the delegates marched in a body to St. Patrick's Cathedral, where a special pontifical mass was celebrated by the apostolic delegate, the Most Rev. Emanuele Falconio.

Convention of Apple Shippers. Detroit, Mich., Aug. 9.—An exhibition of choice specimens of apples grown in Washington, Oregon, Montana, Idaho, Colorado, New York and other states attracted attention at the opening here today of the annual convention of the International Shippers' Association. The marvelous growth of the apple industry within the past few years is evidenced by the much larger and of a more representative character than ever before. The proposed reciprocity agreement between the United States and Canada and its effect upon the apple growers is one of the subjects that will receive attention during the three days' sessions of the convention.

More Britons To See Canada. London, Aug. 9.—Under the patronage of the Duke of Sutherland, who has acquired extensive interests in western Canada and built a home there with a view to making it his residence during a considerable part of each year, a distinguished party of English legislators, journalists and others sailed on the Olympic today to become acquainted with the wonders of the Canadian West. After landing at New York the tourists are to travel in the Duke's yacht up the Hudson River and through the Erie Canal and the Great Lakes to Fort William, Ontario. From that point they are to go by rail to Winnipeg and thence to the properties of the Duke of Sutherland in Alberta. The party will go as far west as Vancouver and Victoria and will return to England about the end of October.

Eagles To See "Poaring Camp." San Francisco, Cal., Aug. 9.—Admiral Togo received today by the local committee in charge of arrangements for the national convention of Eagles, and visitors who flock to San Francisco during the last week of this month for the national convention of Eagles. The committee estimates that at least 75 per cent of the 2,000 local branches of the order scattered over the country will be represented. An entire floor of the St. Francis Hotel has been reserved for the use of the grand president, Senator Grady of New York, and other national officers. The visitors will be handsomely entertained. The "Poaring Camp" show, which will be one of the most interesting and novel features of the entertainment program, typifying San Francisco in the days of the gold rush, is now under preparation.

South Carolina Veterans. Columbia, S. C., Aug. 9.—Preparations on an elaborate scale are being made for the reception and entertainment of the Confederate veterans and their friends who are to meet here the later part of this month for their annual state reunion. The reunion was originally scheduled to begin today but was postponed for two weeks in order not to conflict with other gatherings.

West Virginia I. O. O. F. Fairmont, W. Va., Aug. 9.—Fairmont is entertaining for the first time in her history the grand encampment of the West Virginia Odd Fellows. Delegates from the local lodges throughout the state were in attendance at the formal opening of the gathering today. In connection with the grand encamp-

ment the Patriarchs Militant are holding their annual session.

Togo Ends Washington Visit. Washington, D. C., Aug. 9.—A large crowd in which were included many representatives of the government, the navy and the foreign diplomatic corps assembled at the United States Station this afternoon to bid farewell to Admiral Togo upon his departure from the capital. The distinguished Japanese naval hero expressed his warm appreciation of the cordial welcome and the many features of entertainment that had marked his visit to Washington. Admiral Togo and his party will spend tomorrow in Philadelphia and then proceed to New York.

Loving Cup for Gaynor. New York, Aug. 9.—Mayor Gaynor was presented today with a massive silver loving cup to remind him of his narrow escape from assassination just one year ago, when he was shot by the discharged city watchman, Gallagher. The cup was subscribed for by a committee of leading citizens of New York. It was presented to the mayor in the Aldermanic Chamber of the City Hall. United States Senator O'Grady made the address of presentation.

Pearls in Australian Waters. The pearl is the best known of Australian gems, and for many years thousands of dollars' worth have been secured in Queensland. The oyster fisheries of Thursday Island have been the chief source of supply, but pearls are found all along the Queensland coast.

Astoria to Celebrate Centennial. Astoria, Ore., Aug. 9.—One hundred and fifty thousand dollars will be spent in the entertainment of the thousands of visitors expected here for the great carnival in celebration of the centennial of the founding of the first permanent settlement in this section of the country. The celebration will begin tomorrow and continue for an entire month. The program will embrace historical pageants, military parades, athletic competitions, carnival attractions, band tournaments and numerous conventions and other gatherings of various kinds.

Stick to Your Business. Stick to your legitimate business. Do not go into outside operations. Few men have brains for more than one thing. To dabble in stocks, put a few thousand dollars in a mine, a few more into a factory and a few more into an invention is enough to ruin any man. Do not be greedy. Be content with fair returns. Make friends. All the money in the world is not worth so much to you as one good staunch friend.—Henry Ward Beecher.

Exploded in His Hands. A horrible death was that which befell Lewis Frederick, foreman for Mitchell Brothers, contractors, of Spokane, Wash., who was blown to atoms by a stick of dynamite which accidentally exploded in his hands. Frederick was superintending the placing of the sticks of dynamite close to a bonfire. The body of the foreman was blown a distance of 40 feet.

Men Wanted

Yes, men wanted!

Always the employers of Janesville are clamoring for LIVE men.

There are two ways for the LIVE man to get the JOB HE WANTS.

One is to read the "Help Wanted" ads in the Gazette and to answer those appealing strongly to him.

The other way is to write and run in the "Situation Wanted" columns of The Gazette and ask which tells about himself—what he is doing, what he can do, his age, experience and anything else of interest to a prospective employer.

Gazette "Situation Wanted" ads cost but one-half cent per word for cash.

Buy Your Winter's Supply of

COAL

This Month.

50c Per Ton Saving

How many tons of coal do you buy each year? If you buy 10 you can save \$5.00 by purchasing during this month. And this saving is on good, live, bright pure Scranton Coal.

"The Coal That's All Coal"—the kind of coal you would select if you knew the vast difference there is in coal. All coal is not alike—Scranton Coal is vastly different than the ordinary. It's to your advantage to buy

Pure Live Scranton Coal

"THE COAL THAT'S ALL COAL"

When you buy Scranton you get the best fuel procurable. It's mined free from slate, shale and other minerals that do not contain heating properties and which are so much waste. Pure Live Scranton Coal burns brightly, gives the maximum amount of heat and burns down a thin ash, no clinkers to clog your grate because it's all coal. Scranton is the utmost in coal and right now it enjoys a minimum in price.

A Page of Bargains

Gazette's Best Bargain Offer Attracts Attention

Which did you decide was the "Best Bargain" in last Monday night's issue of the Gazette? Why was it best? Why did it appeal to you?

We have set aside each week a page and asked the merchants to contribute their (one) best bargain for the day. A competent committee is selected each week to call at the stores and inspect all the values offered and decide which in their opinion is the best value.

Perhaps the very best value is the thing that you need most. You will not know which item is best unless you read every item thoroughly.

By paying attention to this page each week you'll learn how to read advertisements quickly—see things that passed unnoticed before—get decidedly more out of the advertisements than you ever did before.

This Bargain Page is bound to make, from any point of view the most interesting reading in Monday night's Gazette.

READ EVERY ITEM—SAVE MONEY.

WOMAN'S PAGE

The Evening Chit-Chat

By RUTH CAMERON.

ISN'T she funny?
And yet isn't she pathetic?
Whom am I after this time?

A rather common type, I think—the girl who is forever fancying that some married man or other is smitten with her. Sometimes she is a very pretty girl who is so used to admiration that she fancies even those who have no right to be falling in love with her. But more often she is a less attractive girl who hasn't enough nor, and consequently is forever saving her wounded pride and mal admiration and satisfying her inevitable craving by imagining that these captive husbands are pining for her.

She tells her friends, with what pretends to be indignation, but is really smirking delight, how Mr. B. tried to flirt with her at the bridge party.

She takes Mr. L.'s cordial "Good morning" and occasional chat with her on the train as the first symptoms of a tender interest in her. In reality they are merely dictated by Mr. L.'s cheery married-man sympathy for her "aloneness."

She goes to visit a young married friend and comes home and tells how Mr. S. positively neglected his wife to sit on the veranda and go walking with her. Poor Mr. S. he was only doing what his wife asked him to and finding it a hard job at that.

In the office some unsuspecting benedict finds that she particularly enjoys a certain author and brings her one or two of his latest books and even walks down to the train with her once or twice discussing them, and straightway she is sure he is the unhappy victim of her charms.

If any of her married friends get out with her for any reason at all, she has no difficulty in finding their hidden reason—they are jealous. Tom or Dick or Harry or whoever it may be, was too attentive to her at the dance or has been coming up on her veranda too often.

Poor, foolish, deluded, little girl. You have yet to learn that married men get tired of their wives and go hunting around for attentions much more often in flocks than in lone life.

The things that meant so much to you because you looked at them through the magnifying glass of your desire for admiration, probably meant less than nothing to these men.

And even if by any chance they did mean something, it is far better for you to minimize and make light of them, than dignify them by thinking and talking so much about them.

You don't want a little or maybe a life-wrecking love from a man who has no right to give it to you. It may sound romantic, but romance in real life has a terrible, seamy, everyday suffering side.

What you really want is a normal, happy, healthy, commonplace love that means a heartstone and babies for you.

Turn your eyes toward that goal, little girl, and long for it and work for it and forget these foolish ideas of yours and I'm sure your own will come to you much the sooner.

The Candid Girl

by Barbara Boyd

Gives the Widow's Side of Life.

HERE'S a lot of fun made of widows," said the Candid Girl. "But their life isn't all fun and roses.

"Just say a person is a widow, and instead of arousing sympathy for her, everybody is at once, to put it mildly, interested. The advent of a young widow at a summer hotel, or on board of an ocean liner causes more comment than would the arrival of a dozen girls or married women. Everybody seems to expect something doing when a young widow is around. But why?"

The men looked slightly conscious, but nobody said anything. "Of course, a widow likes fun, especially if she is young, the same as anybody else; but let her be the least bit lively and people say she is gay, and look at her in a way that means she will bear watching. And if she is very quiet and melancholy, they intimate it is a pose. And if she is the least bit nice to a man, everybody is quoting old Weller and telling the man to be careful. I tell you it isn't a bit pleasant to be the object of so much suspicion. It's hard on your nerves to go about trying to look as if you didn't know what everybody is thinking.

"It is true a widow doesn't need a chaperone," went on the Candid Girl, "but everybody is sitting around with their eyes glued on her, while she is worse than having fifty chaperones.

"I heard a man say the other night,"—one of the men looked slightly uneasy—"he was talking about an awfully popular man friend of his: 'He's all right while just the girls are after him,' he said, 'because, after all, married girls are rather modest and nice. But look out, if a dashing young widow takes a fancy to him.' Now wasn't that mean?"

None of the men could be induced to criticize their brother.

"For my part," said the Candid Girl, "I think widows are just women with maybe an aching heart. They know men better than we do, and perhaps their heart is a little tender toward men because of one particular man, and so they want to be nice to all of them. But I don't believe they are all the things they are generally supposed to be, and I don't think we ought to make life any harder for them than it is."

"I am sure I try to make it as pleasant for them as possible," said one of the men, guilelessly.

"Here, too," said another.

"You weren't thinking of being a widow yourself some day, were you?" asked a third.

"Well, if I ever am," replied the Candid Girl, laughing, "and people don't treat me right, I have an idea I'll tell them, pleasantly, what I think of them."

Barbara Boyd

The Center of the United States. The center of area of the United States, excluding Alaska and Hawaii and other recent acquisitions, is in northern Kansas, in approximate latitude 39 degrees 55 minutes. The center of population is about three-fourths of a degree south and more than 13 degrees east of the center of area.

The Goulful Florist.

"I don't believe that God ever made the flowers to sell," said the broad street florist. "If I was rich I wouldn't sell a one. I would raise the beautiful things to give away to people who need them, to the poor and the sick and the tired." The florist looked as if he meant what he said, too.—Newark News.

The Kitchen Cabinet

There must be no stint of labor where it will tell for our neighbors' happiness, but no wasteful extravagance of it where it will not profit.

HOW TO PREVENT WASTE.

To keep down expenses, prevent waste in food and conserve the strength of the housekeeper is the great problem of household economy.

One of the best methods of preventing waste in food is to prepare only as much as will be eaten; this does not mean being miserly, but simply thrifty.

Wilted vegetables may be restored by soaking in cold water several hours.

When opening a can of tomatoes, use the thin juice for soups and the tomatoes for an escalloped dish.

Look over the ice box before planning a meal; often things most appetizing are forgotten.

Wise planning and careful buying will aid in reducing expenses, but all left-overs must be used or the table expenses will be too high.

Wash peaches before peeling and the skin may then be used with apples for jelly, giving the jelly a delicious peach flavor.

A dainty little toasted cracker may be made from thinly sliced baking powder biscuit that have been toasted and buttered. Serve with orange marmalade and tea.

To prevent the waste of energy in the housekeeper, plan to lie down if but for five minutes, completely relax, close the eyes and if the feet are tired and swollen, elevate them and the blood leaving them relieves the tired feeling.

A hot bath and a brisk rub will do wonders to a tired body.

In the cool of the day get the pastry all ready for the winter, and set on ice, then when the pie is to be made a few moments will do the work.

Watermelon rind makes delicious preserves and if cut in small cubes and preserved with ginger makes a most appetizing garnish for ice cream.

Use a carpet sweeper instead of a broom on the rugs and carpets unless you are fortunate enough to have a vacuum cleaner.

Wash a window now and then. Don't try to clean the whole house in one morning.

Nellie Maxwell.

DAILY DIET AND HEALTH HINTS

By DR. T. J. ALLEN

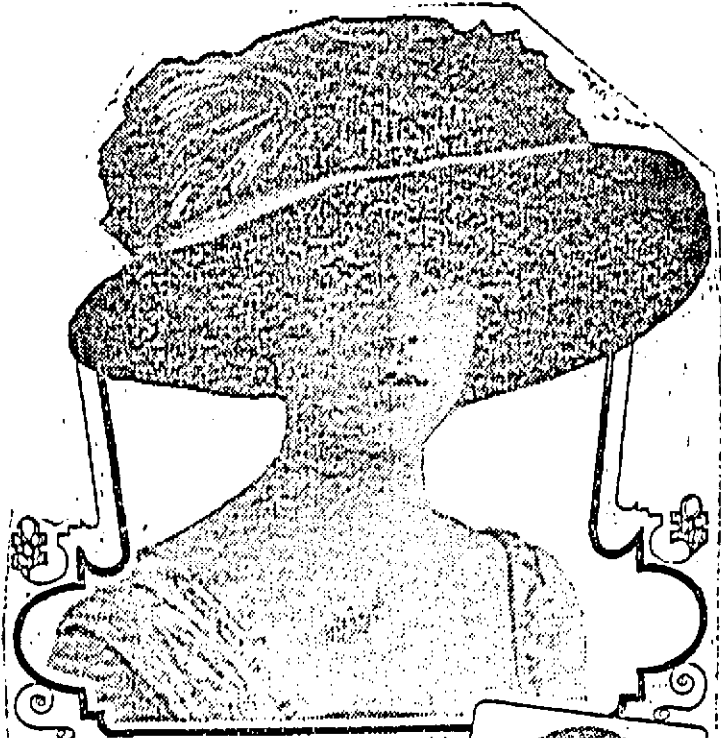

Food Specialist

SUGAR GIVES ENERGY.

Sugar combines best with fruits. When eaten at the same meal with meat it is unduly retained in the stomach and tends to produce catarrh. A man doing hard manual labor frequently ate half a pound or more of sugar without injurious effects, sometimes repeating the sugar ration several times in succession when a strong appetite developed for beans or other heavy food containing a large percentage of protein. This is not an ideal diet, but it is better than indiscriminate mixing without reference to requirements. Experiments made in Germany showed that men on the march could utilize sugar without injury, but the eating of large amounts of candy by sedentary persons, especially children, is injurious.

Bar "Closing Out Sales."

"Closing out sales" and the like are being placed under ban in many of the leading cities of Russia, where strict rules are established governing such sales to prevent an imposition upon the public.

MADELINE FORCE

COL. ASTOR TO WED SOCIETY DUG. Miss Madeline Force, the 18 year old bride and Col. John Jacob Astor, New York City.—The formal announcement of the engagement of Miss Madeline Emma Talmage Force to Colonel John Jacob Astor whose first wife was formerly Miss Eva Willing of Philadelphia, from whom he was divorced in November, 1909, comes as a complete surprise to the many friends on both continents. The courtship has extended over a period of one year, Miss Force having met the Colonel at Bar Harbor last summer. She is 18 years old and Col. Astor is 47. The engagement was announced by the father of the bride-to-be, and with the sanction of Colonel Astor. No date has been set for the marriage.

COLONEL JOHN JACOB ASTOR.

RESCUED FROM WHITE SLAVERY.

Helen Johnson Whitson, who was rescued from a gang of White Slavers in Santa Cruz mountains.

San Francisco, Cal.—Showing in her childlike face all the traces of her harrowing experience of the last twelve days, while a prisoner in the hands of an organized gang of white slavers at their retreat in the Santa Cruz mountains, 17 year old Helen Johnson Whitson, accompanied by her rescuer, Frank H. DePue, and her mother and brother, arrived last night from Santa Cruz.

Relating a tale of fiendish brutality on the part of the men who kept her a prisoner for the men "higher up" in the white slave traffic the girl told DePue of how she had been lured by a member of the gang from her home in Twenty-third street, of how she had been treated while at the resort at Zayante Villa by the accomplices of the gang and how she had been drugged with who during the time she had been a prisoner.

The rescue of the girl was dramatic. A friend named DePue discovered the whereabouts of the girl, who had been missing for some time, and notified the family. Arriving at Santa Cruz, Sheriff Trafton was notified and a posse formed. The party started for Zayante Villa, the place of concealment, in a buggy.

From the top of a bluff the house in the canyon was watched until they saw the men and women coming from a walk to enter the house, accompanied by the girl. Stealthily, they crept down the ravine and entered the house, covering every one with their weapons.

Miss Whitson was taken from the house and returned to her mother. To her mother she told the tale of her abduction under promise of marriage and of the treatment by the people paid by the white slave ring.

KEEP THE KIDNEYS WELL.

Health is Worth Saving, and Some Janesville People Know How To Save It.

Many Janesville people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Janesville citizen's recommendation. Charles W. Allen, R. F. D. No. 8, Janesville, Wis., says: "I have used Doan's Kidney Pills and can recommend them as a remedy that can be relied upon. I suffered from kidney trouble for a long time and although I tried various remedies, I received no relief. Finally I procured Doan's Kidney Pills and began their use. In a few days my trouble disappeared and it has never returned."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

BLACK AND WHITE COAT SUIT.

Despite some of the early predictions that black and white would make way for more glaring colors, the combination is still holding its own in the world of good clothes.

A striking coat suit of white serge, shown above, has a broad band of black satin down front and back of plain narrow skirt. Collar, cuffs, and large buttons are also of satin, and the coat of the short-waisted variety is heavily braided in white roushete in manner illustrated. This is an extremely modish model for short wear.

THE RETURN OF THE CLASSIC COIFFURE.

Those members of the fair sex who are fortunate enough to possess a face and figure that are fitted to the classic garb, whose lines are new so fashionable—and there are many of such among our belles—are naturally turning to the psycho-knot as an appropriate way of wearing the hair.

The coiffure is alike becoming to the maid or the matron and it may be worn at the angle that is most becoming to the expression or shape of the face.

MARRIED BY REV. REYNOLDS AT NINE THIS MORNING

John P. Hocking of Janesville and Miss Minnie Kepka of Hanover Took Nuptial Vows.

John P. Hocking of this city and Miss Minnie Kepka of Hanover, were united in marriage at nine o'clock this morning by Rev. John Reynolds at his home on Washington street. The groom is employed here as a harness-maker. They will make Janesville their home.

Growing Cotton in Palestine.

Cotton growing is being resumed in Palestine. An extensive suitable area is available. During our civil war cotton was cultivated there on an extensive scale, of which several old cotton presses still bear witness. It is said that the cotton was of very good quality. Companies are being organized in Turkey of late years a distinct revival of the cotton industry has become manifest.

Horrible Method of Suicide.

There are many ways of taking one's own life, but that chosen the other day by a Swedish sailor, chief engineer of a boat lying at Queensborough, Ireland, was crude and horrible. Having suffered from insomnia, the man soaked his clothing with paraffin and then set himself alight. He suffered fearful agonies and lingered for 48 hours.

Must Give a Guarantee.

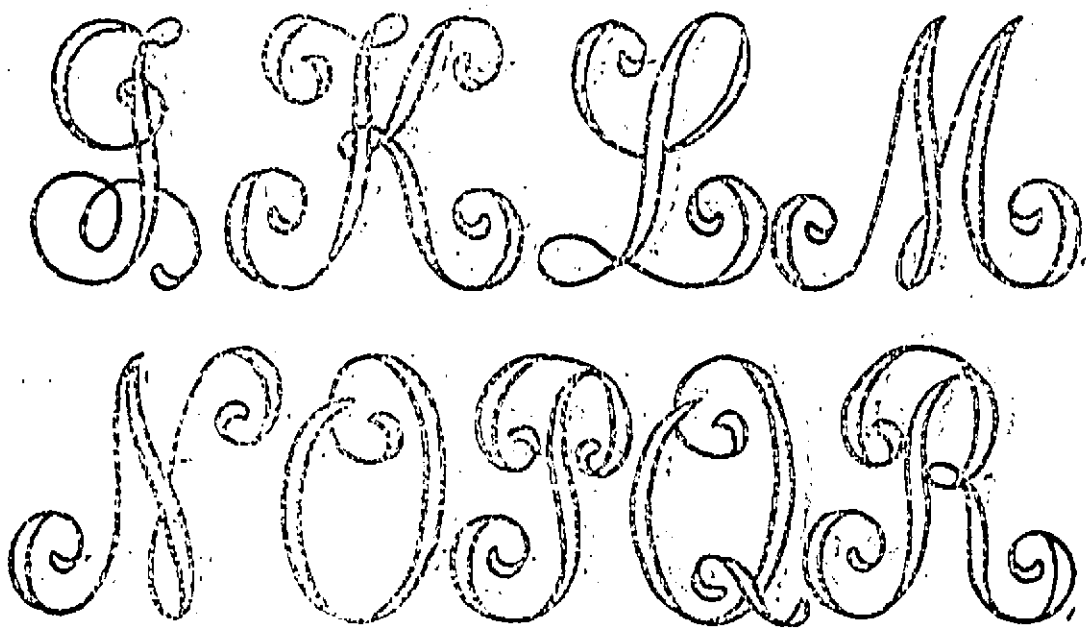

Extraordinary traffic on roads in England is only permitted, nominally, after those conducting it have agreed to pay for the injury caused.

ARGO Gloss Starch

What a shame to take fresh clean washed clothes and put them into dirty starch—scooped from an open box.

Argo is a perfect Starch for all laundry uses—hot or cold starching. Get the clean Argo package, 5c.

This alphabet in script will be most useful for marking towels, table-clothes and napkins. The letters are padded well, and then closely embroidered in the over and over stitch, done cotton No. 20 or 25 should be used for the work.

LOCAL SOOTHSAYERS WERE JACKSONIZED

REVIVAL OF JACKSON CLUB MAKES PROF. Z. O. BOWEN AND PROF. HARRY DAVERKOSEN ITS VICTIMS.

MOCK TRIAL WAS HELD

Psychic and Clairvoyant Were Subjected to Severe Grilling to the Huge Amusement of Crowd of Lawyers and Business Men.

"We the jury duly selected by all parties interested to hear and report to the common council the advisability of adopting the ordinance introduced by Alderman Dulin, relating to the practice of certain sciences, would report that after a full and impartial hearing of the various arguments both for and against the ordinance, we are of the opinion that it would be detrimental to the best interests of the city to adopt the ordinance, and that the ordinance, if adopted, would be unconstitutional for the reason that the ordinance does not include sorcery, witchcraft, lodgerdemain, and spiritualism, and is discriminatory on its face, and void."

This was the verdict of the six men selected in the mock trial of Prof. Harry Daverkosen and Z. O. Bowen, clairvoyant and psychic, in the assembly room of the city hall last evening, which marked the revival of the Jackson Club, famous in this city a few years ago.

Proceedings in the mock court were opened at eight o'clock when a small crowd of lawyers and men about town had gathered in the assembly room. Some difficulty was experienced in selecting a chairman, but P. J. Monat, prime mover in the affair, finally agreed to accept the honor.

T. R. Nolan, who announced he was there as a friend and not hired as the attorney for Prof. Daverkosen, arose and announced Mr. Daverkosen's objections for the jury and the gentlemen took their seats near the platform.

Alderman J. J. Dulin was called upon to explain the reasons for the introduction of the ordinance on Monday evening and stated that it had been presented by request of the party who drew it up. The ordinance was read by City Attorney H. L. Maxwell.

Clairvoyance Attacked. Attorney A. O. Gestriloff, who also explained that he, as a friend of Prof. Bowen and not an attorney, was assisting the professor, called for a general discussion and stated that those in favor of the ordinance should state the reasons why they favored it and Attorney W. H. Dougherty, who, it was claimed, drew up the ordinance, was asked to speak.

Mr. Dougherty denied the authorship of the ordinance and said his opposition to clairvoyance, psychics and other fables was brought about by what he had read of their deluge in Chicago. He said he had never met a real clairvoyant medium or psychic and that the two gentlemen on trial must prove that they were not fakes.

He started to tell a story of a business deal in which he and Prof. Daverkosen had undertaken to make a lady out of trouble and the lady had been recommended to him by Prof. Dougherty by Prof. Daverkosen.

An Interruption. At this juncture Mr. Daverkosen interrupted the telling of the story by arising and addressing Mr. Dougherty with angry words, dubbing the attorney a "two-faced lawyer" because Dougherty had advised the woman to leave the professor alone. The clash came quite a hubbub, but order was finally restored by the chairman and Mr. Nolan was requested by Mr. Dougherty to "keep his animal quiet."

The story was never finished. Prof. Bowen on Grill. Professor Bowen was the first of the two soothsayers put on the grill. He gave an elaborate explanation of his method of forecasting through the position of the planets, the principle being that the planet under which a person was born, was the one which should, though it did not always, guide a person in the selection of his life occupation. Two local cases to whom the professor claimed he had brought success, were cited as proofs of his powers. Questions were fired at him broadcast throughout the course of his remarks, which his explanations made "perfectly queer" in the questioners and the audience. Prof. Bowen was finally called from the floor.

Wages Small. The jury desired to know what his weekly earnings were and the professor stated was not practicing for money. "My earnings," he said, "would not keep Chief Appleby's dog."

Daverkosen Speaks. The greatest excitement and fun prevailed toward the end of the meeting when Prof. Daverkosen was worked almost into a fury and Prof. Bowen, who attempted to come to Mr. Daverkosen's aid, became tangled up in his statements through the questions and to him. Both, however, never suspected the hoax and both evidently believed the verdict was bona fide. Mr. Daverkosen continued his words at attacks on Dougherty but was finally calmed when the latter arose and stated he was making a public apology (?) and was fully convinced the ordinance should not be passed.

Attacked Lawyer. Daverkosen undertook to explain his profession but at times his statements were contradictory and his explanations were not clear, although the audience expressed themselves as "understanding perfectly." Questions asked by Mr. Dougherty were followed by an outbreak of merriment and applause for the professor invariably turned on the latter to give him a tongue-lashing, until requested to "cut out the personalities."

Attorney Nolan was given a very high compliment and recommendation of his ability as the "best lawyer in the state" in a so-called "demonstration"

LONG STRUGGLE ENDS IN DEATH OF GATES

(Continued from page 1.) One week later the American Steel & Wire Co. of New Jersey, capital \$30,000,000, was launched. Then Gates went into the market. From 1897 to 1901 was his prime. His profits have been swollen by rumor. Gates was a "grandstand" performer; a "self advertiser" of the deepest dye. But nevertheless, Gates had to rent a good many safe deposit vaults to hold his securities. In 1898, after a plan between Judge E. H. Gary, Garfield H. Ten Brook and Gates to combine steel and wire mills into a great trust, had failed, Gates and Gary organized the Consolidated Steel & Wire Co. of Illinois. Gates taking four-fourths of the capital stock of \$1,000,000. This he later sold out to the American Steel & Wire Co. receiving \$3,500,000 for his original investment of \$1,000,000. Gates himself, underwrote \$2,000,000 of the stock of the American, admitting that he received a large profit for the underwriting, but forgetting how much it was.

FUNERAL FOR AGED BROOKLYN RESIDENT

Last Sad Rites For Mrs. E. P. Graves Were Held At the Home Monday Afternoon.—Brooklyn News Items.

(Special to the Gazette.) Brooklyn, Aug. 8.—Mary L. Washington was born November 10, 1831 in Essex County, New York. She was married to Edwin P. Graves July 19, 1851 and died in Brooklyn, Wisconsin, August 4, 1911. To this union eight children were born. She leaves a husband, four sons and three daughters, one son having died in childhood, three brothers and three sisters to mourn her loss. Funeral services were held at the home Monday afternoon, conducted by Elder Byron McKee of Arena, Wis., assisted by Elder Mayhew of Albany. Interment was in the Rutland cemetery.

Mrs. Peter Flood. Mrs. Peter Flood died at her home, southwest of town last Friday. The funeral was held Monday at the home, interment was in Dayton cemetery.

Auto Accident. An automobile with lights ran into a big truck by Emmett Norton, Wednesday evening. Mr. Norton attempted to get out of the way, but as the car was out of control, it could not be stopped until the horse and harness were badly cut and the buggy broken. Mr. Norton escaped without any serious injuries.

Brooklyn Personalities. Mrs. M. O. Luchinsinger of Broadhead, visited her daughter, Mrs. William Norton last week.

Miss Margaret Plimane of Evansville, visited her friend, Miss William O'Brien last week.

Clayton and Eugene Smith were in Madison Saturday to visit their brother, who is ill at the hospital.

Mrs. D. Jensen of Chicago, is a guest at the M. Karmgard home.

Mr. and Mrs. Charles Gates of Hamilton, Mich., and Miss Bessie Day of Evansville, were guests at the Mrs. At. Boyce home Thursday.

Lloyd Hubbard of Evansville, visited his sister, Mrs. D. C. Smith Friday.

Mr. and Mrs. Charles Carlsson and children of Evanville, visited relatives in town Sunday.

Mr. and Mrs. Ed. Mueller, Ellsworth Mueller and Miss Sylvia Schumaker spent Sunday at Lake Keweenaw.

Floyd Smith had the misfortune to sprain his ankle Friday evening, while playing in the ball game between Brooklyn and the ladies ball team.

O. M. Case of Albany, called on friends in town Saturday.

George Webster of Madison, spent Sunday at the Charles Simmons home.

Mr. and Mrs. John King of Piquette, Mich., are visiting at the Will King home.

Miss Mahel Hook returned Saturday from the sanitarium at Milwaukee.

Miss Genevieve Devine of Evansville, spent Sunday at the home of her friend, Miss Nettie Peterson.

Mrs. M. C. Fuller, who has been staying at the home of her son, C. M. Fuller, while convalescing from a broken arm, returned last week to her home in Madison.

Mrs. Margie Shultz Babcock of Sparia, visited friends in this vicinity last week.

Lloyd Douke of Ft. Atkinson, is visiting at the S. Snyder home.

Raymond Piller of Canton, Ill., and Floyd Piller of Janesville, spent Sunday at the home of their parents.

James Pledger was in Oregon last week to attend the funeral of his aunt, Mrs. Kellor.

Mrs. John Malone of Madison, and Miss Mink of Omaha, Neb., visited Mrs. H. J. Ellis last week.

Miss Hazel Hankinson of Evansville, is visiting at the home of Mr. and Mrs. Harry Hook.

Party of Fairfield People Had Bad Accident on Main Street, Janesville, Recently.

(Special to the Gazette.) Fairfield, August 8.—What might have been a serious accident was caused by the heavy traffic on South Main street, Janesville, recently. When returning home, Mr. and Mrs. R. L. Robinson accompanied by Mr. and Mrs. A. W. Chamberlain and daughter in trying to avoid the street car, Mr. Robinson was obliged to run his auto into a pile of gravel and the auto was thrown in contact with a telephone pole. Besides a bad fright and a damaged car, no one was seriously hurt.

Personal. Mrs. Roy Tarrant and son, Russell, were absent last Thursday. While thrashing at Chas. Hinkelwell's last Saturday, Gus Broadhead fell from a ladder and sprained his wrist quite badly. Edgar Richard had a cow struck by lightning last Saturday. Mrs. Nettie Clowes visited a few days last week with her sister, Mrs. Laura Clowes, near Elkhorn. Fred Schiller is quite sick. Miss Nettie Brown of Delavan, visited her aunt, Mrs. R. L. Robinson the latter part of the week.

Thrifty New Yorkers. New Yorkers are not all spend-thrifts. More than 3,000,000 of them have deposits in the savings banks.

LONG STRUGGLE ENDS IN DEATH OF GATES

(Continued from page 1.) Morgan asked Hill to take the matter up with me. I agreed to meet Morgan and he and Hill came to my house. They were scared of Carnegie. I told them that Carnegie was the only man who could get to Carnegie, and I arranged it with Schwab. I evolved the idea that finally was accepted—the holding company scheme. Carnegie got \$229,000,000 for his steel holdings, of which he personally owned 60 per cent.

Gates admitted that he received \$10,000,000 in preferred stock for \$10,000,000 worth of preferred stock in the American company, and between \$50,000,000 and \$60,000,000 common stock.

Morgan "swung back" at Gates and landed in the famous Tennessee Coal & Iron deal, in which, Gates declared, President Roosevelt was fooled into permitting the transaction in the hope of averting a panic.

Gates swore that, with a dozen other men, he entered a pool to absorb the T. C. & I. Gates personally taking 200,000 shares. Morgan wanted T. C. & I. Gates swore. The plunger declared that \$10,000,000 worth of this stock had been hypothecated with the Trust Company of America, and that when this bank needed money, he applied to the clearing house for funds, Morgan was notified and offered to loan the money, providing the T. C. & I. stock was turned over to him. In this way Morgan secured control of what Gates declared to be one of the most profitable businesses in the world, giving \$90 worth of United States Steel for every \$100 share of T. C. & I. A short time before, Gates admitted, Morgan had offered \$150 a share for the stock. It was this famous deal which President Roosevelt "O. K'd" upon the statement of Judge Gary, H. C. Frick and others that T. C. & I. was in financial trouble. Gates declared the company was absolutely sound.

Of late Gates and his son, Charles, have been investing heavily in Texas oil fields and backing the Standard Oil. Gates was one of the heaviest stockholders in the Republic Steel & Iron Co., which has remained aloof from the steel trust and fought it constantly.

Gates was a thoroughbred sportsman. He loved horses and horse racing and his boys were always in the thousands. He played poker for immense stakes and was reputed to have lost \$25,000 once on a trip from New York to Chicago.

Gates was an art collector, said to have been the possessor of the finest private collection in the world. Gates once "went in" for military show and for a time was colonel of Illinois militia. His home was in New York, Chicago and Texas.

Mrs. Gates was Miss Delora R. Baker of St. Charles, Ill. He is survived by one son, Charles Gilbert Gates, of whom one of the Pulitzer school of journalists once wrote:

"The younger Gates was a brilliant and joyous spirit. Three diamonds blazed in each suspender buckle. Three more diamonds shone in his necktie shirt front. His cuff buttons glittered with costly baubles. The glimmer of his presence enveloped everybody in the office except his father."

Young Gates, whose wife recently secured a divorce, with it is said, inheriting the larger portion of his father's estate.

Medical Perils. In Beloit, Wis., when a physician gives a dose, he is expected to partake of a similar one himself as a guarantee of his good faith. Should the patient die under his hands, the relatives though they rarely exercise it, have the right of putting him to death, unless a special agreement has been made freeing him from all responsibility as to consequences; while, if he is fully expected to yield to his fate like a man.

Gates always claimed credit for being the master brain who evolved the United States steel corporation, whose bitter enemy he now is. So important and almost acting as a brigadier, Gates appeared recently before the Stanley steel investigating committee of the house of representatives in Washington and laughed as he told how Morgan and others had been forced to turn to him for support in organizing the billion-dollar concern.

"In 1899-1900 the steel business was in a demoralized condition as a result of the activities of Andrew Carnegie. Morgan" (Gates referred to the money king simply as "Morgan")—"was making a lot of money out of the National Tube Co. and was heavily interested in railroads. Carnegie threatened to build a big tube plant at Ashland, O., and to build a railroad to connect his various plants, and thus avoid paying freight charges."

"This worried Morgan a lot and he sought the advice of James J. Hill. Hill told Morgan that if his good friend, could save the situation, Morgan and I aren't on good terms and

LINOTYPE OPERATOR HAD FINGER INJURED

Harry Schumaker Had Finger Badly Smashed in Machine at Recorder Office Yesterday Afternoon.

Harry Schumaker, a young man employed at the Recorder office, had one of his fingers caught in the linotype machine yesterday afternoon about 5:30 and badly smashed. The regular linotype operator was not at the plant at the time of the accident and there was no one there who was well enough acquainted with the machine to release the injured member. A phone call was hurried to the Gazette for aid and William Drenttel, one of the night shift operators, hurried to the Recorder office. When he arrived the machine was nearly taken apart so that the finger was released shortly and a physician who was at hand dressed the wounded member. It is feared that an amputation will be necessary.

Dental circles of the country have been set in an uproar by the invention of a Paris dentist, who has gotten out a self-adjusting plate of upper teeth for the dairy cow. This will fill a long felt want. A German scientist has discovered that the original cow had tusks like a bull, but in the attempt to chew the veg off a succulent she drove them back in, with the result that her descendants have a tendency to have horns through a careless eternity.

There is no sadder sight than a horse of old corn going up against a horse of young corn. It is like feeding celery to a toothless goat. We have no doubt that this invention will never do its perfect work until some genius rises up an evener to straighten up the rotary jaw action of the average heifer. A friend of ours watched a milk cow with swinging jaws trip through a modest roped one day, and before she got to apply the and cheese he was so cross-eyed that he went into the house and kissed the hired girl by mistake. The cow whose lower jaw is hung on a pivot is a sight that would make a tight-wire walker dizzy.

Some of the kitchen utensils now in use are a menace to life and limb. Take the open-faced skillet, which can tear the whiskers off of the innocent bystander with hot lard at a distance of twenty rods. Then there is the rolling pin, which has flattened out the whiskers of many a peevish hubby. The worst of all is the folding ironing board, which is an offspring of the revolving clothes rack. A lady of our acquaintance who weighs 200 pounds rides high into the lap of some of these collapsible ironing boards the other day, and when a plumber extricated her she looked like the star patient of an obsest hospital. More men have lost their religion and several inches of pink outside by trying to fold up one of these devices without calling in the hired girl, than from any other cause.

Safeguarding One's Health. The surest way to keep in good condition is to watch the beginnings of a breakdown. When you feel tired most of the time, when your work is an effort, and you are so "stupid" you can't keep awake, then is the time to take account of stock and find out what you are doing to break the laws of health.

Salaries of Army Officers. The pay of officers in active service in the army list: Lieutenant-general, \$14,000 a year; major-general, \$8,000; brigadier-general, \$7,000; colonel, \$5,000; lieutenant-colonel, \$3,500; major, \$3,000; captain, \$2,400; first lieutenant, \$2,000, and second lieutenant, \$1,700. From colonel down the pay is increased every five years.

Medical Perils. In Beloit, Wis., when a physician gives a dose, he is expected to partake of a similar one himself as a guarantee of his good faith. Should the patient die under his hands, the relatives though they rarely exercise it, have the right of putting him to death, unless a special agreement has been made freeing him from all responsibility as to consequences; while, if he is fully expected to yield to his fate like a man.
